REFERENCE

(Admin Supervisor) Ms. Lorna Obispo

About Me

Experienced in Frontend and Backend Development. Capable of working in a team-driven environment and adaptable to many challenging situations. Works well under pressure and adheres to strict deadlines.

Projects

Olinsterg Unlock

- A side project for a client's admin monitoring system for their RFID Doorlock System.
- I used technology such as **HTML**, **CSS**, and **Javascript** for frontend. **PHP** and **Mysql** for backend.
- The challenge is implementing communication between the database and Arduino ethernet hardware.

Spider Gagambattle

- This is for my client's 3d android game based on Filipino-inspired Spider fighting culture.
- Achieved through technology such as **Unity Engine**, **Blender**, **Photoshop**, and **C#** programming skills.
- It already has 10k+ downloads on Playstore and it has 4.7 ratings.

My Notepad

- A fun project I did to enhance my skills in full-stack web development and web design.
- I used **React** for the frontend. **MongoDB** and **Express** for backend. I used **Adobe XD** for UX design.
- I used **Nodejs** npm packages to achieve functionality such as a content reader.

Resistor Color Coding

- A useful tool for calculating the value you want to get from the resistor.
- The design was done using the **MUI** React library.

Skills

Technical Skills

- Web development ([HTML](#), [CSS](#), [Javascript](#), [React](#), [MUI](#), [Express](#), [MongoDB](#), [Mysql](#), [PHP](#), [Git](#), [Github](#))
